Welcome to Nicedor

At Nicedor we offer an outstanding collection of PVCu door panels with a vast array of designs, colours and glass options.

Our door panels combine contemporary styling with high quality materials which provide a stunning, high quality and secure entrance to any home.

They have also been developed with CoolSkin technology, which means long lasting performance whatever the climate in summer and winter.

These exclusive PVCu doors panels are available in a wide range of style and colour options including, rosewood, sherwood oak, two mahoganies, anthracite grey, cream, black, red, blue, green, Irish Oak and now Chartwell green, another industry first.

In fact, we were the first U.K door panel company to offer coloured door panels and we have led the way in other technical developments since.

Browse through the brochure and find out why we are the door panel company of choice for leading installers and homeowners across the UK.

Price Band Key

Life in Full Colour

We were the UK's first door panel company to offer a comprehensive range of foiled coloured door panels including flat and feature panels. Our range extends to rosewood, sherwood oak, mocha, two mahoganies, anthracite grey, cream, black (schwarzbraun), red, blue, green, standard white and foiled ash white, and now Irish oak and chartwell green as industry firsts.

At a time when some other door companies just offer plain white and a few woodgrain effects, we clearly lead the market. Today's consumer wants choice and we are giving that in our extended range of colours, which are capable of matching any coloured door frame. Grain runs vertically on door & side panels, horizontally on conservatory panels.

“Choose your colours carefully and much like the interior of your home you can create an exterior entrance as individual as you. Make sure your installer offers you Nicedor”

REINFORCING OPTIONS

All our door panels are available with the following: Standard poly, 4mm MDF and double MDF

GEORGIAN BAR OPTIONS

Please note that Georgian Bars are available in White, Rosewood, Mahogany and Gold.

10 Year Guarantee

10 year colour fast guarantee, genuine UPVC will not discolour

10 year delamination guarantee

- Cool foil protected
- High density super insulating polystyrene
- High quality Polyurethane adhesive, carefully applied to each and every door panel
- High quality reinforcing option
- C.N.C machined to size and furniture preparation for a higher quality finish
- Ventilated mouldings as standard
- Each design benefits from our unique radius corner mouldings for superior reliability

Protected by CoolSkin

CoolSkin is a PVC sheet laminated to a decorative heat reflective foil, which has been designed and manufactured specifically for PVC door panel manufacture, such as our own at Nicedor.

It is easily vacuum formed, does not have any moisture problems, nor fail at high temperatures and matches the vast majority of all PVCu door and window profiles in the UK.

The special heat reflective sheet minimises the amount of infrared heat absorbed from the sun thereby reducing the amount of heat passing through to the base, helping eliminating warping, bowing and cracking. The base alone will withstand an extra 20 degrees Celsius, compared to other standard PVC sheets on the market. So it's important to ask for Nicedor by name.

COOLSKIN

HEAT REFLECTIVE DOOR SKIN TECHNOLOGY

- Superior scratch resistance
- Superior abrasion resistance
- Superior thickness
- Minimised heat absorption (NIR activity)
- Highly Weatherable
- Embossed finish
- Retention of embossing
- Exact match to window and door frame
- BBA accreditation
- Specified under BS ISO EN manufacturing controls
- External independent auditing

All COOLSKIN sheets are Lead and CFC free, and produced from 100% virgin PVC with no added rework.

Half, side & flat panels

A fantastic range of half, side and flat panels to combine with any of our feature panels or to use on their own. Available in any of our fantastic colours.

Nice Door half and quarter panels are available as doubles

We also manufacture flat panels in the following sizes;
